Way of Grace Church,

Warm greetings to you from Pastor Daniel and family!

By the grace of God and your prayers me and my family members and the church congregation are doing well. And as always it is my joy and delight to serve the Lord for which He has called me. I thank you very much and appreciate your care and concern for my family providing for us regularly every month. May the Lord bless you abundantly.

This month was able to visit 70 homes reaching out to 300 people giving the message of hope in Christ Jesus. 6 people have accepted Jesus Christ as their personal saviour. As you are aware my wife Esther is suffering from mental imbalance so that I am spending sometime for her and taking care of her special needs giving her timely medicines and helping her with the household works with 2 young sons who are doing their college studies. God has been so faithful to us and I strongly believe that God will heal her. We request your prayers for her.

A man by name Yellaiah was suffering from Asthama and it has become very hard for him to breath and loosing all hopes the family members called me to pray for him. As I reached there I found that the patient was rolling all over the ground unable to breathe and for 1 hour we struggled in prayer and the Lord wonderfully healed him that night. Please pray for his complete recovery.

God is mightily using me and answering my prayers for the healing of the demon possessed, sick and the suffering.

We give all praise to God for the HIV/Aids Awareness training program which was conducted wherein 30 couples Pastor's and their Wives attended. We are also planning to set-up a clinic in this village. Please pray.

Sincerely,
Ps. Daniel
